

# NURSING ASSISTANT CAREER OPPORTUNITIES

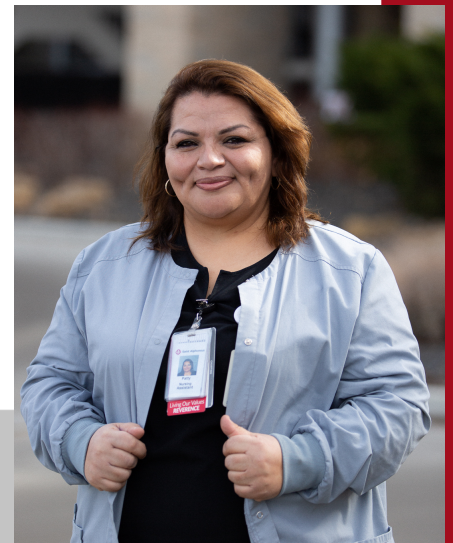

## Start Your Career as a Nursing Assistant with Paid Training!

### What is the Trinity Health Nursing Assistant (NA) Training Program?

- on-the-job training opportunity for individuals without healthcare experience to become a NA within the hospital.
- newly hired NAs attend an onsite 2 week paid training to learn NA fundamentals before beginning work on their assigned unit.
- NAs develop competent, safe, and caring skills that further their professional development and career growth.

### What is a Nursing Assistant?

- NAs are unlicensed members of the healthcare team working under the supervision of a Registered Nurse (RN).
- NAs support RNs with the delivery of safe, effective, and compassionate patient care in a hospital setting.
- NAs help patients with daily living activities like hygiene care, mobility assistance, meals and nutrition and bathroom needs.
- NAs are one of the most present roles at the bedside and have a tremendous capacity to connect with the patients they care for.

### Why become a NA at Saint Alphonsus?

At Saint Alphonsus, we provide training platforms that are virtual, interactive, and flexible for your schedule. Our Boise hospital is the region's only Level II Trauma Center, caring for the most critical patients. This is a great opportunity if you would like to become a future Nurse.

### Our Colleagues Enjoy:

- Day One Benefits
- Full Benefits Package (medical, dental, vision, life insurance, disability)
- Paid Time Off (PTO)
- Competitive Compensation
- Flexible Schedules
- Tuition Reimbursement
- Scholarship Programs
