

# Women's Health in Your 80s

This is the time to give and accept help, and reflect on achievements and your legacy. Check out the healthy guidelines below. Then work with your doctor or healthcare provider to personalize the timing of each test to meet your healthcare needs.

## GENERAL HEALTH

- ❑ **Full checkup** — including weight and height
- ❑ **Sleep habits** — discuss at your annual exam
- ❑ **Thyroid (TSH) test** — discuss with your doctor or healthcare provider
- ❑ **HIV screening** — get this test if you are at risk for HIV infection (have had unprotected sex, sexually transmitted disease, or used drugs with needles)
- ❑ **Hepatitis C screening** — one time at any age

## HEART HEALTH

- ❑ **Blood pressure test** — at least annually
- ❑ **Exercise habits** — discuss at your annual exam
- ❑ **Cholesterol panel** — total, LDL, HDL and triglycerides; discuss with your doctor or healthcare provider

## BONE HEALTH

- ❑ **Bone density screening** — get a bone mineral test at least once; talk to your doctor or healthcare provider about repeat testing

## DIABETES

- ❑ **Blood glucose or A1c test** — get screened if you have sustained blood pressure above 130/80, take medicine for high blood pressure or high cholesterol, or are at risk for developing diabetes

## BREAST HEALTH

- ❑ **Breast self-exam** — become familiar with your breasts so you can identify any changes and discuss with your doctor or healthcare provider
- ❑ **Clinical breast exam** — yearly; discuss with your healthcare provider or doctor if any concerns
- ❑ **Mammogram** — official recommendations vary; discuss the schedule that is right for you with your doctor or healthcare provider

## MENTAL HEALTH SCREENING

- ❑ Discuss with your doctor or healthcare provider

## COLORECTAL HEALTH

- ❑ **Colonoscopy, fecal occult blood test, flexible sigmoidoscopy** — discuss with your doctor or healthcare provider

## REPRODUCTIVE HEALTH

- ❑ **Pap test** — discuss with your doctor or healthcare provider or anytime you have concerns
- ❑ **Sexually transmitted infection (STI) tests** — both partners should get tested for STIs, including HIV, before initiating sexual intercourse; get a chlamydia test yearly if you have new or multiple partners

## EYE AND EAR HEALTH

- ❑ **Comprehensive eye exam** — annually or as recommended by your doctor
- ❑ **Hearing test** — discuss with your doctor or healthcare provider if having any concerns

## SKIN HEALTH

- ❑ **Skin exam** — monitor your skin regularly for any changes and discuss with your doctor or healthcare provider as part of your routine full checkup

## ORAL HEALTH

- ❑ **Dental cleaning and exam** — every 6-12 months

## IMMUNIZATIONS

- ❑ **COVID-19 vaccine** — initial series and boosters
- ❑ **Influenza vaccine** — yearly
- ❑ **Tetanus vaccine** — every 10 years
- ❑ **Pneumococcal vaccine** — one time only
- ❑ **Herpes zoster vaccine** — two-dose series; discuss with your doctor or healthcare provider
